

THE BOWDEN NEWS

VOL. II No. 24

BOWDEN, ALBERTA, CAN. THURSDAY, JANUARY 3 1912

PER YEAR 100

Local and Personal

Born;—on Jan 31 to Mr Mrs R Christie a daughter.

Miss Marian Lowe returned to Red Deer on Tuesday.

Mr R McCue went to Calgary Tuesday on business.

Mr D Gillespie returned to Red Deer to continue his work there.

Miss M Scott of Innisfail was the guest of friends in Bowden on Tuesday.

Miss A Campbell went to Penhold Tuesday where she will begin teaching again.

Mr and Mrs T Giligan entertained on New Years their sons John and William and their wives.

Mr Leslie Bernard expects a car of gault coal about the middle of next week.

Mr W M Campbell returned on Wednesday from a visit with friends at Gull Lake Sask.

A number from here attended the hockey match at Olds on New Years Day.

Service will be held in St Mathew's Church on Sunday Jan 7th.

Mr Dan Munroe had the misfortune to lose a very valuable mare from paralysis on Saturday last.

Mr J Rutherford and wife of Calgary were the guests of Mr and Mrs S Arnold the past week.

Mr R Hawkins of Calgary is in town this week on business and is the guest of his father Mr G Hawkins.

Mr J Arnold took a sleigh party to Innisfail on New Years night where all attended the ball held in the opera house.

Mr J C Raasmussen formerly of Bowden but now of Thalheim, California arrived in town Wednesday evening and will remain here for some time before returning to the States.

The Local Camp of Modern Woodmen of America will meet on Tuesday next. Important business as well as installation of officers for the coming year will be taken up. A full attendance is requested.

Mr Anderson of Betshton returned on Tuesday from a trip to Alexander Min where he took for interment the remains of his deceased wife about two weeks ago.

New Years evening the home of Mr and Mrs H Rutledge 3 1/2 miles east of Bowden was the scene of a very enjoyable party. Those present passed a very pleasant time dancing and playing cards.

There will be no election for councillors in Bowden this winter although a new lot of faces will guide the destiny of this town. Little interest was taken in the nominations by the ratepayers and only three names were put up and in consequence these parties went in by acclamation:— Mr J Bernard; Mr H Huff; Mr W S Gray are the councillors for 1912.

Good Yet

About two weeks ago appeared in the News an advertisement announcing our clubbing offers. From this we have been constantly receiving results, but we want to remind our readers that the offer still hold good although in a short time we will be faced to withdraw it. This we believe is one of the best newspaper bargains ever offered in Bowden and you cannot afford to miss the opportunity. Many of the premiums offered are alone worth the price paid for the whole parcel as will be readily seen by the following quotations;

Cupids Conquests

Cunningham-Rutledge

On the 27th of Dec at the home of Mr and Mrs H Rutledge a very happy event took place where their daughter Hazel Grace was united in marriage to Mr Robert P Cunningham. The bride appeared becomingly dressed in cream cashmere with madia hair and cream roses. It made a pretty scene as the couple stood under a well arranged arch of ever greens and pink roses to enter into the solemn relation of man and wife. The ceremony was performed by Rev W M Chalmers while the strains of the wedding march were played very softly by Mrs Taylor.

After the ceremony the merry guests partook of a barty supper nicely prepared by Mrs Rutledge and friends. We wish the happy couple much joy in their married life.

Latimer-McCleary

On the first day of the New Year the manse of Bowden was the scene of a very happy and joyous event when Henry Winchester Latimer was united in marriage to Miss Leva May McCleary of Louisiana Missouri U S A. The bride looked very charming in a buff coloured travelling dress. The ceremony was performed by Rev W M Chalmers at 12 o'clock after which a New Year dinner was enjoyed by the wedding party. The happy couple left on the noon train for Calgary where they spent a few days before returning to their new home east of Bowden. We wish them a very long prosperous and happy married life.

Late Mr. F. R. Shore

On Wednesday the whole community received a shock by the sudden death of Mr Frank R Shore father of Dr A E Shore. Mr Shore only arrived in Bowden on Xmas Day from London Ont his old home intending to make a lengthy visit with his son. Although a stranger to the people in the country as yet he had become well known in town and had already made many friends.

Up to three days previous his death which was due to heart failure he was in good health and the slight indisposition which he suffered was not thought serious until the end so very suddenly came. The funeral will be conducted at his late residence tomorrow evening 6 pm after which the remains will be sent for burial to Ontario.

Thousands Now Use This Low-Cost Cough Syrup

A Family Supply for 50c, Saving You \$2—
The Quickest, Best Thing You Ever
Used, or Money Refunded.

The prompt and positive results given by this inexpensive cough medicine have caused it to be used in more homes in the U. S. and Canada than any other cough remedy. It gives instant relief, and will usually wipe out the most obstinate, deep-seated cough inside of 24 hours. It quickly succeeds, even in whooping cough and croup.

A 50-cent bottle of Pinex, when mixed with home-made sugar syrup, makes 16 ounces—a family supply—of the most pleasant and effective cough remedy that money could buy, at a saving of \$2. Easily prepared in five minutes—full directions in package.

Children take Pinex Cough Syrup willingly, because it tastes good. It stimulates the appetite, and is slightly laxative—both excellent features. Splendid for hoarseness, throat tickle, bronchitis, etc., and a prompt, successful remedy for incipient lung trouble.

Pinex is a special and highly concentrated compound of imported Norway White Pine extract and is rich in gualacol and other natural healing pine elements. Simply mix it with sugar syrup or strained honey, in a 16-oz. bottle, and it is ready for use.

Pinex has often been imitated, but never successfully, for nothing else will produce the same results. The genuine is guaranteed to give absolute satisfaction or money refunded. Certificate of guarantee is wrapped in each package. Your druggist has Pinex or will gladly get it for you. If not, send to The Pinex Co., Toronto, Ont.

AGENTS WANTED

For our fast selling Drugs and Drug Sundries. We supply you with articles some of which are saleable in every home, and on which you will receive a profit of 200 to 300 p.c. We have agents earning \$5.00 to \$10.00 per day the year round. Be an agent. Send at once for our special agents price list. Don't overlook this chance. It means dollars to you. Write at once.

The Pictures on the Wall

In the quiet of the twilight,
Sitting in my lonely room,
Forms and faces gather round me,
Those who once found here a home.
I hear again the voice long silent,
Hear almost the soft footfall;
But, alas, 'tis only mem'ry
And those pictures on the wall!

Yes, their mem'ry still is precious,
Sweeter with the passing years,
As I tarry, sad and lonely,
And unbidden flow the tears.
They are safe in that country,
Back to me they seem to call,
But the call is only mem'ry
And those pictures on the wall!

In the quiet of the twilight,
Days and months and years have
gone,
I look upward at the faces,
They to me seem looking down,
Father, mother, brother, sisters,
Once more with me, one and all,
Real to me, but only mem'ry
And those pictures on the wall!

—Robert E. Washburn.

Peter's Pence

Two Irishmen were in a city bank
recently, waiting their turn at the
cashier's window.

"This reminds me of Finnegan," re-
plied one.

"What about Finnegan?" inquired
the other.

"Tis a story that Finnegan died,
and when he greeted St. Peter, he
said, 'It's a fine job you've had here
for a long time.'"

"Well, Finnegan," said St. Peter,
'here we count a million years as a
minute and a million pounds as a
penny.'"

"Ah!" said Finnegan, 'I'm needing
cash. Lend me a penny.'"

"Wait a minute," said St. Peter.

Canadian Pacific officials state that
settlers are going in in large num-
bers, mostly from the British Isles,
and many lots have been purchased
by the new-comers in Invermere, the
commercial centre of the valley. The
latest bulletin issued by the Canadian
Pacific Railway states that construc-
tion on the Kootenay Central Railway
is proceeding rapidly, grading being
completed as far as Billingham, 42
miles south of Golden, while from
the Crow's Nest Pass the rails are
laid as far north as Fort Steele. A
small tourist hotel was opened in In-
vermere in August, and two banks
have secured sites for buildings to be
erected in the spring.

Minard's Liniment Cures Colds, etc.

We must injure ourselves. God will
not injure us.

Tread according to directions. Dr. J. D.
Waller's Dysentery Cordial will afford re-
lief in most acute forms of summer com-
plaint. Whenever the attack manifests
itself no time should be lost in seeking
the aid of the Cordial. It will act im-
mediately on the stomach and intestines
and allow the irritation and pain. A trial
of it will convince anyone of the truth
of these assertions.

The evils and sorrows that afflict
mankind are of mankind's own mak-
ing.

Oil for Toothache.—There is no pain so
acute and distressing as toothache. When
you have an unwelcome visitor apply
Dr. Thomas' Electric Oil according to di-
rections and you will find immediate re-
lief. It touches the nerve with soothing
effect and the pain departs at once. That
it will ease toothache is another. And
quality of this Oil, showing the many
uses it has.

"All women look alike nowadays.

All their hats at the same angle, all
their waists anywhere but where they
ought to be. Whether their noses turn
up or down doesn't seem to make any
difference."—Also Joan, by Lilian Ar-
nold.

Shiloh's Cure

quickly stops coughs, cures colds, heals
the throat and lungs. 25 cents.

A Tip to Travellers

Scene—Scottish railway station.
Ticket collector, in making collection,
finds an old gentleman tumbling in his
pockets for his ticket.

Ticket Collector—"Tickets, please!"

Old Gentleman—"I'm just looking
for it."

Ticket Collector—"Well, I'll look in
again in a few minutes. See and have
it ready then."

Ticket collector returns shortly, but
the old gentleman is still looking for it.

Ticket Collector (suddenly)—"Why,
you have it in your mouth, man."

Old Gentleman (giving him the tick-
et)—"Oh, so I have! Here you are."

Another passenger in the carriage as
the train moves on, to first passenger

—"I'm afraid you're losing your mem-
ory, sir."

First passenger—"Nae fear o' that,
nae fear o' that. The ticket was a
fortnight auld, and I was just sookin'
the date aff't!"

Hard Times

A tourist in the mountains of Ten-
nessee once had dinner with a queru-
lous old mountaineer who yawned
about hard times for fifteen minutes
at a stretch. "Why man," said the
tourist, "you ought to be able to make
lots of money shipping great corn to
the northern market." "Yes, I orter,"
was the sullen reply. "You have the
land, I suppose, and can get the
seed." "Yes, I guess so." "Then
why don't you go into the specula-
tion?" "No use, stranger," sadly re-
plied the cracker; "the old woman is
too lazy to do the ploughin' and
plantin'."

MOONEY'S BISCUITS ARE THINNER

That makes them neater, crisper, daintier, more appetizing;
The one biscuit good enough to take the place of your own baking,
Fresh as the biscuits from your own oven.
Think what that means! Freedom from a broiling kitchen—leisure on the porch
or in the parlor. Time to do the little knick-knacks that have been neglected.

MOONEY'S PERFECTION SODA BISCUITS

Are the creamiest, crispest crackers made.
They are baked in the big sanitary factory in Winnipeg—
right at your very door.
Use MOONEY'S and be sure of a biscuit that is
absolutely fresh; a biscuit that will satisfy the family,
In tempting packages or sealed tins
as you prefer.

"LET MOONEY DO IT"

Unfamiliar
"I think the country is just sweet,"
said the town young lady. "I love to
see the peasant returning to his
humble cot, his sturdy figure outlined
against the setting sun, his faithful
collier, at his side, and his plough
upon his shoulder."

Deafness Cannot Be Cured

by local applications, as they cannot reach the dis-
eased portions of the ear. There is only one way to
cure deafness, and that is by constitutional remedies.
Deafness is caused by an inflamed condition of the
mucous lining of the Eustachian Tube. When this
tube is inflamed you have a rumbling sound or im-
perfect hearing, and when it is entirely closed, Deaf-
ness is the result, and unless the inflammation can be
axed out and this tube restored to its normal condi-
tion, hearing will be destroyed forever. Nine cases
out of ten are caused by Catarrh, which is nothing
but an inflamed condition of the mucous surfaces.
We will give One Hundred Dollars for any case of
deafness (caused by catarrh) that cannot be cured
by Hall's Catarrh Cure. Send for circulars, free.
F. J. CHENEY & CO., Toledo, O.
Sold by Druggists.
Take Hall's Family Pills for constipation.

Elephant Ivory
It requires 12,000 elephants to sup-
ply 650 tons of ivory.

A MOTHER'S PRAISE OF BABY'S OWN TABLETS

Mrs. Allen Mason, Carleton, N.B.,
writes: "I have used Baby's Own
Tablets ever since I have had child-
ren and that is going on fifteen years.
I have always found them entirely
satisfactory for all the ailments of lit-
tle ones and feel that I cannot praise
them too highly." Mrs. Mason's
praise is just that of thousands of
mothers who consider Baby's Own
Tablets the only safe and sure remedy
to keep in the house for their little
ones. The Tablets are sold by medi-
cine dealers or by mail at 25 cents a
box from The Dr. Williams' Medicine
Co., Brockville, Ont.

When a man is a good example to
his son, it's because the boy only sees
him at home.

Thinking of Building a Silo ?

Better Build it of Concrete

THE construction of a Silo affords
an excellent example of what the
farmer can do with Concrete—
and of the superiority of Concrete over
all other material for various structural
work about the farm.

The usual wooden silo, besides being expensive, is far
from satisfactory. In the first place, it does not endure;
and, more important still—being far from weather-proof
—its contents become water-logged—producing an unsan-
itary condition.

A Silo built of Concrete, on the other hand, is
practically everlasting—it is proof against heat, cold
and moisture—and it has the merit of comparative
economy.

This economy feature is further ex-
plained in our free book—"What the Farmer
Can Do With Concrete,"—which tells how to
mix and use Concrete for the making of
silos and other buildings on the
farm.

**"What the Farmer Can Do
With Concrete."**
Tells you how to use Concrete in constructing
Barns, Clusters, Horse Blocks, Dairies, Houses, Poultry Houses, Root Cellars, Silos, Shelter Walls, Stables, Gutters, Hens' Nests, Hitching Posts, Stalls, Steps, Tanks, Troughs, Walks, Well Curbs, Etc., etc., etc.

Fill out the coupon
and send for the
book to-day.

You may
send me a

An Added Kernel Means Millions

Lethbridge Alberta.—If one extra potato were added to each plant grown in the United States the actual increase in the annual yield of the crop would amount to 21,000,000 bus. The figure is given in a report on Dry Farm Crops and Their Improvement, by Prof F B Linfield of the Montana Agricultural College and published by the International Dry Farming Congress in its annual handbook.

If one extra kernel were added to each head of oats, barley, wheat or ear of corn" says Prof Linfield "we would have of oats 20,000,000 bus extra; of barley 15,000,000 bus extra; of wheat 15,000,000 bus extra; and of corn 5,200,000 bus extra. And not for one year alone but for all time this slight increase in the yield of the plant would add many millions of bus to our crops.

Clean, plump selected seed true to variety, not mixed, free from weed seed and from disease and with strong germinating power should always be planted by the farmer by means of increasing his own yield.

FAMOUS PEOPLE

BY FANNIE M. LOTHROP

BLISS CARMAN

Canadian Poet, Critic and Editor

Bliss Carman, poet, critic and editor, one of the foremost of Canada's contemporary litterateurs, was born in Fredericton, N. B., in 1861, and on his father's side is descended from the Carmans who went from Long Island, N. Y., to New Brunswick, while his maternal ancestors fought in the American Revolution. He was educated at the college school of his native town and the University of New Brunswick, from which he graduated in 1881, later taking a two years' post-graduate course at the University of Edinburgh, and afterwards spending two years at Harvard.

There seemed to be a restless, Bohemian strain in his nature that chafed under restraint and convention; for he tried many lines apart from literature, but it had somehow a compelling homing instinct that always brought him back to a bottle of ink and a pen. For a few years he read law, then ventured into the field of civil engineering, then taught school—but it all proved empty and unsatisfying; he had not found his place.

It was not until his post-graduate days that his poetic sense became manifest and under the stimulus of the inspiring appreciation of the editors of the college literary magazine he began to write verses in a timid, furtive sort of a way at first, then he grew bolder and more irrepressible, until the editor's drawer was stacked with enough Carman verses to last for years. When he began to send his poems out to the real magazines, where the editors paid for contributions, acceptance was not so sure.

He sent out poem after poem, but they almost invariably returned, with no leaf of promise; but he had supreme confidence that his doves of verse would find resting place in some ark of editorial appreciation. The best ones, which always made the greatest number of trips before acceptance, especially interested him, and he gave them pet names to commemorate their travels, such as "The Flying Dutchman," "Ulysses" and "The Wandering Jew." One manuscript he sent to Australia by way of San Francisco and it came back via the Suez Canal and London, visiting many editors, and this poem he christened "Captain Cook," because it circumnavigated the globe.

Mr. Carman has been on the editorial staff of half a dozen magazines or more and recently retired from the editorship of the "Literary World"; he has written about a dozen books, three jointly with the late Richard Hovey. He has a well-shaped head, a shock of wavy hair and a general premeditated sensibility of attire that would make him conspicuous in any company.

Author's portrait by artist of the Bowden News, by Mrs. C. Mack, at the Department of Art.

ALBERTA

A DOMINIE PRESIDENT

CARTER OF NEW BRUNSWICK HEADS CANADIAN CLUBS.

Superintendent of Education in Maritime Province Vindicates Right of School Teachers to Lead Great National Movement as in Other Lands—Aim of the Federation is to Unify Public Opinion.

At the annual conference of Canadian Clubs, held in Winnipeg last summer, Mr. W. S. Carter, M.A., LL.D., was elected president of the Association for all Canada. The chief aim of the great speech-after-luncheon movement, founded by Charles McCullough, in Hamilton, in 1892, is to teach true Canadian nationalism. As a school teacher starting humbly down in New Brunswick, and climbing until in 1909 he became Superintendent of Education for the Province, Dr. Car-

MR. W. S. CARTER, M.A., LL.D.

ter has probably had more experience elucidating eloquently the virtues of Canadianism, than many of the business men who belong to the Canadian Club, and have not encountered Young Canada in the raw as he has. School teachers and university professors are too infrequently called to identify themselves officially with broad national movements in this country. This is not so in France and Germany and other European countries, where pedagogues sometimes lead revolutions and are made heroes of novels.

As head of the Association of Canadian Clubs, he will have an opportunity to organize public opinion in a quiet but effective way. The Association represents all the Canadian clubs of the Dominion, but has no power over them, either in administration or in legislation. Its chief business is to unify opinion and experience in Canadian club work, to help the weaker clubs, and to assist in founding new clubs. Its influence is thus incidental, but none the less important.

Prisoners of Parliament.

Not everyone is aware that the British Houses of Parliament have their own prison. Yet situated high up in the Clock Tower is the M.P.'s prison, consisting of six rooms—four bedrooms and two sitting-rooms.

The honorable member who has been dishonored by imprisonment for a breach of Parliamentary etiquette does not have such a very hard life in St. Stephen's prison.

The prisoner's meals are sent up to him from the House of Commons' kitchens, and he can choose whatever dishes he likes from the ordinary menu. Unlike an ordinary prisoner, he receives the bill for his meals from the catering authorities!

Perhaps the best-remembered occupant of Parliament's prison was Mr. Bradlaugh, who was sentenced by Mr. Speaker to imprisonment in the Clock Tower for refusing to withdraw when requested so to do.

Offenders against Parliament other than members have before now been sentenced to imprisonment in the Clock Tower. These "outsiders" have included several public speakers and the editor of a prominent newspaper.

The Beaver.

The beaver is really a sort of portable pulp mill, grinding up almost any kind of wood that comes his way, says a writer. I once measured a white birch tree twenty-two inches through cut down by a beaver. A single beaver generally, if not always, amputates the tree and when it comes down the whole family full to and have a regular frolic with the bark and branches. A big beaver will bring down a fair-sized sapling—say three inches through—in about two minutes and a large tree in about an hour.

Enterprising Climbers.

A. L. Mumm, mountain climber, and his companion, Dr. N. Collie, have been at it again. Mount Robson, in the Rocky Mountains, was this time the scene of their upward plodding.

Their field glasses revealed some extraordinary features. They encountered two of the largest glaciers ever seen in the Rockies, one of which was fifty miles long and eight miles across. They took observations of a peak even loftier than Robson, which itself is 12,700 feet above sea level.

ELEPHANTS AT \$50 EACH.

The Cost of Big Game Shooting in African Hunting Grounds.

While it is usually only mighty Nimrods like Mr. F. C. Selous who are able to recover, by means of the spoils of the chase, the expenses entailed by big game shooting expeditions, it would seem that countries like British East Africa make a handsome sum from the license and permits granted to those who follow this fascinating form of sport; for one cannot take a gun and roam at leisure through that region of the world, shooting anything and everything in the way of game. As a matter of fact, a shooting license in British East Africa costs the visitor \$250, and this only allows a limited number of each species of game to be shot. And if you want to shoot an elephant an extra \$50 has to be paid, while for a second elephant the sum of \$100 is required. To shoot a giraffe there is a charge of \$50 above the \$250 license. In spite of these restrictions, however, on a rough estimate—according to The Field—quite 300 parties visit British East Africa every year, and each party will spend at least \$1,500, which gives a total of \$450,000.

It appears, however, that in Nyasaland, known as the British Central Africa Protectorate, which extends nearly to the banks of the Zambesi, the expenses are not so great, and the conditions of hunting are much more pleasant, the country being thicker populated and timbered and better watered than British East Africa. The game regulations for Nyasaland are as follows: License for resident, \$10 per annum; and license for a visitor, \$50 per annum, allowing the following to be shot: Buffalo, six; hippo, four; eland, six; zebu, six; zebra, six; sable antelope, six; roan antelope, six; kudu, six; warthog, ten; Aardvark, two; monkeys, six; other species, in all, thirty; egret, ten. In addition, one may shoot one elephant for \$50; two, \$100; three, \$200, and four \$300. In addition, porters can be got for 4s. a month, and all they require is a little food or a yard of calico a week for each man.

In British East Africa, however, porters demand much more. The best type get ten rupees (\$5) per month, and a cooking-pot, blanket, and water-bottle, besides, rations. The Somali hunters and guides get from thirty to seventy rupees (\$15 to \$35) per month, and they not only want tents, pots, blankets, and water-bottles, but a varied diet. "Notwithstanding all this expense," says the writer in The Field, "they give endless trouble and annoyance. I think they are a most objectionable set, and adverse sportsmen to engage as few of them as possible. For my part, I would dispense with them altogether, and trust to the raw natives, who may not be so intelligent, but, on the other hand, give far less trouble."

The Value of a Pawn.

A long time ago, in 1665, when Queen Elizabeth was playing chess, the French ambassador entered her room, and while watching the progress of the game, he said to her, "Madam, you have before you the game of life. You lose a pawn; it seems a small matter; but with the pawn you lose the game."

The queen understood his meaning, and saw the moral—that her success in life as a queen depended upon prompt and right action in little things; that a pawn in the game of life must not be lost; that its value in the problem of life is incalculable. The lesson taught to the queen is a good lesson for all young readers. Small mistakes in life are often serious in their results. If you would win the game of life, you must move your pawns with caution and skill. Small leakages will sink a ship. Little foxes spoil the vines. A single word is not much; but it may separate fast friends. The cost of one cigar is a small matter; but it often creates an appetite that destroys a fortune. One glass of ardent spirits is a little thing, but when it is drunk, the pawn may be lost that loses the game of life.

A step may be a short one, and, in itself, but of little account; but if it is taken in the wrong direction it will affect your destiny, and turn you away from the pathway of success and honor.

Hurt Cotton Yield.

Prior to the opening of the Assuan dam the yield of cotton was 525 pounds per acre, whereas the same land to-day produces only 440 pounds. In the opinion of many growers this decreased yield is due in part to the silt of the Nile water sinking to the bottom of the dam instead of enriching the land.

Use of Radium.

Sir William Ramsay pointed out at the recent parliament of science in Portsmouth, England, that if radium could be turned to mechanical use a ton of it would suffice to propel a ship of 15,000 tons, with engines of 15,000 horsepower, at the rate of fifteen knots for thirty years.

The Queen's Cupboard.

Queen Alexandra has a quaint treasure-cupboard, inlaid with mother-of-pearl. Its contents are ten casts of hands. They are casts of the hands of Her Majesty's five children, taken at the age of two and again at the age of twenty.

GAINS FAME ABROAD

CANADIAN SPECIALIST IN PSYCHOLOGICAL LITERATURE.

H. Addington Bruce, Author of Several Historical Works and a Teller of Ghost Stories Has Been Forced, Like Many Another Young Man, to Secure His Market Outside Canada—Helped Hon. James Bryce.

In one of the big magazines there is running a series of articles, "Adventures in the Psychological." The author is Mr. H. Addington Bruce. He is a young Canadian who has made a striking literary success in a rather unusual and difficult field. University of Toronto men of the class of 1895 will remember Bruce. He was the six-foot Trinity senior who cleaned up on English essays and was the marvel of half-baked football heroes. By birth Mr. Bruce is a Torontonian, the son of Lieut.-Col. John Bruce, a well-known military man, formerly commandant of the 10th Royal Grenadiers. At Upper Canada College he began his scribbling on the student paper. After leaving Trinity by the B.A. route, Mr. Bruce was so proficient in sentence structure that Prof. Goldwin Smith gave him a position on his paper, "The Week." The Sage of the Grange liked his style and packed him off to New York.

He arrived there about the time Messrs. Arthur Stringer, Arthur E. MacFarlane, and Arthur Heming were living on flapjacks, and accepted stories. Unlike the three Canadian Arthurs, Mr. H. Addington Bruce did not begin besieging editors with experiments in fiction. His fast-expanding mind developed historical ambitions; he would write the real history of the American people. And during his fifteen odd years across the line Mr. Bruce has written several historical works of real merit. Apart from their historical value, these works illus-

H. ADDINGTON BRUCE.

trate Mr. Bruce's peculiar and almost original method as an historian. Mr. Bruce is a psychological interpreter of history. He himself says that he does not believe a man can write history accurately without studying the working of the human mind. For that reason Mr. Bruce is a psychologist.

As a psychologist, Mr. Bruce is perhaps better known than as an historian. He was a most intimate associate of that great psychologist, the late Prof. William James, brother of Henry James, the novelist. Mr. Bruce has written many popular articles on mental subjects and two books, "The Riddle of Personality" and "Historic Ghost and Ghost Hunters." But psychology to him is only a means of furthering his historical plans. He has just finished assisting Ambassador Bryce in the revision of his great book, "The American Commonwealth," and is now plotting an extensive historical and psychological prose epic of American expansion since the Revolution.

It seems to be a shame that such a writer should be forced to leave Canada because the student of history or of psychology cannot make a living here. This is an old complaint, but it is still true. The Canadian litterateur must emigrate or starve. It makes one grieve to think that such brilliant deliverers and ditchers as H. Addington Bruce should be compelled to work in foreign fields.—Canadian Courier.

Australia's Stone Age.

Dr. Walter E. Roth points out that in northern Australia there are to-day many communities of primitive people wearing no clothes, unable to count beyond three, and still making and using the implements and weapons of the stone age. Dr. Roth has seen these people making their stone implements. They manufacture "celts," scrapers, knives, saws, hand-picks, gouges, pounders, hammers, grinders from stone. They also use shells and teeth for scrapers and drills, and bone for awls and stiletos. He does not share the opinion that these people, and other savages, are stupid because they express no surprise at the miracles performed in their presence by white men. Once, when he had struck matches, and they showed no astonishment, he asked his interpreter what they thought of it. "He say," replied the interpreter, "what for no give it him? You fool throw it away."

THE PROCLAMATION.

How "Arthur" Was Created Governor-General of Canada.

This is the text of the elaborate official proclamation of the Duke of Connaught's appointment as published in The Canada Gazette, and which is of especial interest to Canadians at this time. It will be noted that the signature is "Arthur," as members of the royal family sign only their Christian names:

CANADA.

By Field Marshal, His Royal Highness Prince ARTHUR WILLIAM PATRICK ALBERT, Duke of Connaught and of Strathearn, and Earl of Sussex, in the Peerage of the United Kingdom, Prince of the United Kingdom of Great Britain and Ireland, Duke of Saxony, Prince of Saxe-Coburg and Gotha; Knight of the Most Noble Order of the Garter; Knight of the Most Ancient and Most Noble Order of the Thistle; Knight of the Most Illustrious Order of Saint Patrick, one of His Majesty's Most Honorable Privy Council; First and Principal Knight Grand Cross and Great Master of the Most Honorable Order of the Bath; Knight Grand Commander of the Most Exalted Order of the Star of India; Knight Grand Cross of the Most Distinguished Order of Saint Michael and Saint George; Knight Grand Commander of the Most Eminent Order of the Indian Empire; Knight Grand of the Royal Victorian Order; Personal Aide-de-camp to His Majesty the King; Governor-General and Commander-in-Chief of the Dominion of Canada.

To all whom these presents shall come.—Greeting:

A PROCLAMATION.

WHEREAS His Majesty the King, by Commission under His Royal Manual Sign and Signet bearing date at the Court of St. James's the twenty-first day of March, 1911, has been graciously pleased to appoint me to be, during His Royal pleasure, His Majesty's Governor-General and Commander-in-Chief in and over His Dominion of Canada, and has further so and by the said Commission, authorized, empowered, and commanded me to exercise and perform all and singular the powers and directions contained in certain Letters Patent under the Great Seal of the United Kingdom of Great Britain and Ireland, bearing date at Westminster the fifteenth day of June in the year of Our Lord one thousand nine hundred and five constituting the said office of Governor-General, or in any other Letters Patent adding to, amending, or substituting for the same according to such Orders and Instructions as the Governor-General for the time being hath already received, or as have been given to me with the said Commission, or as I shall hereafter receive from His Majesty.

Now, therefore—Know Ye that I have thought fit to issue this Proclamation in order to make known His Majesty's said appointment, and I do also hereby require and command that all and singular His Majesty's Officers and Ministers in the said Dominion of Canada, do continue in the execution of their several and respective offices, places and employments, and that His Majesty's loving subjects and all others whom it may concern do take notice hereof and govern themselves accordingly. Given under my Hand and Seal at Arms at Ottawa, this THIRTEENTH day of OCTOBER, in the year of Our Lord one thousand nine hundred and eleven, and in the second year of His Majesty's Reign.

ARTHUR.

INFANTILE PARALYSIS

A Germ Disease Which is Baffling the Doctors and Alarming the People Generally

It may be said that doctors are only agreed on two points regarding this much dreaded disease.

First, that it is a germ disease, and, second, like all germ diseases can only be fought with pure, rich blood.

Prevention is always the better way and that is why we are always talking about the wisdom of keeping the blood pure and rich and the nerves healthy and strong by using Dr. Chase's Nerve Food.

Rich, red blood is a deadly foe to disease germs whether they are germs of infantile paralysis, of colds, of consumption or any other disease.

Don't let the blood get thin and watery. Don't let the nerves get exhausted. The risk is too great. Every dose of Dr. Chase's Nerve Food goes to the formation of a certain amount of pure, rich blood. For this reason you are certain to benefit by this treatment.

You need not wait until you have some form of paralysis before testing this great medicine. Be warned by headaches, sleeplessness, irritability, fading memory and power of concentrating the mind. Restore the system while still you have something to build on.

Get new energy and vigor into the system by using Dr. Chase's Nerve Food, 50 cents a box, 6 boxes for \$2.50; at all dealers, or Edmanston, Bates & Co., Limited, Toronto.

W. N. U., No. 878.

KITCHENER CONQUERED

THE MAN OF IRON IS TO BE MARRIED AT LAST.

Fiante of the Famous Soldier Is the Widow of Captain Sir Herbert Naylor-Leyland and Is Very Popular in London Society, Where She Was a Friend of King Edward, King George and Queen Mary.

Lord Kitchener, the great soldier, "the man of iron," the supposed hater of both sentiment and womankind, has been vanquished at last. He is engaged to be married. The lady is Lady Naylor-Leyland, of London, widow of one of Britain's wealthiest men, and formerly Miss Jennie Cham-

LADY NAYLOR-LEYLAND.

berlain. She was not an heiress, her family being only moderately wealthy. Her husband, Captain Sir Herbert Naylor-Leyland, had both money and position. Their marriage in 1889 was termed a real love match. Sir Herbert died in 1899, leaving his widow about \$3,000,000.

Lady Naylor-Leyland is still quite young, and is called "Morning Glory" in London society. It is said that she is admired by the King, and was also a friend of King Edward. Both King George and Queen Mary sent her ladyship personal gifts at coronation time, and Lord Kitchener's future wife seems to be very popular.

What He'd Do.

Mr. Huntley Wright was asked some time ago what he would do if the Government made him a peer, and, in view of Mr. Seymour Lucas's recent lament on this subject, Mr. Wright's reply that he would try to brighten our dull clothes by making all peers wear their robes every day, cut in the modern form of coat and trousers, is interesting as well as amusing. "How splendid a man would look!" continues Mr. Wright, "in scarlet trousers trimmed with ermine! Then I think coronets should be worn always. This would mean two coronets—a small one for every-day wear, to be worn outside the 'topper' or 'bowler,' another larger and best one for Sundays."

The recent marriage of Mr. Wright to Miss Mary Fraser, sister of the well-known singer and actress, Miss Agnes Fraser (Mrs. Walter Passmore), reminds one that there is no family now associated with the stage, which has given so much ability to the theatre as the Wrights. The hale and aged father, Mr. Fred Wright, is still acting, in spite of his eighty-six years, while his wife was a well-known actress in her day.

The Aeropostman.

The fact seems to have been overlooked that when Gustav Hamel, the intrepid aviator, made the first trip with the aero mails from Hendon to Windsor, he traveled at the enormous rate of 126 miles an hour. It may be remembered that when he made his historic journey on September 9th, there was a strong wind blowing. In fact, Hamel only accomplished the flight at the peril of his life. He left Hendon at 4.58, and arrived at Windsor at 5.8. The time occupied on the journey, therefore, was ten minutes. The actual distance from Hendon to the place near the royal mausoleum, Frogmore, where Mr. Hamel alighted is about twenty-one miles, the rate of speed, therefore, being 126 miles an hour. Mr. Hamel is the son of a London doctor. He is only twenty-two years of age, and, although he did not get his certificate until last January, he represented England in the Gordon-Bennett race, and also tried to win the London Daily Mail \$50,000 prize for the flight round Britain.

Flying Reptiles.

The first birds of the earth were in the form of flying reptiles.

The Athenian Republic.

There were no direct taxes in the Athenian republic, either on personality or realty, the sources of revenue being the lands of the republic, fines and confiscations.

HOST TO HIS MAJESTY

LORD HARDINGE IN PUBLIC EYE DURING DURBAR.

Brilliant British Official Who Has Welcomed King and Queen to India Has Had a Busy Career in the Diplomatic Service—Held Several Important Ambassadorships—An Ancestor Was Governor-General.

Lord Hardinge, the present viceroy of India, being the direct representative of the crown in the eastern empire, has with his young and charming wife, taken rank next to their Majesties in the splendid ceremonies and festivities which graced the coronation celebration at the Delhi Durbar. The whole of his active career has been spent in the diplomatic service. He was born in 1859, became a foreign office clerk in 1880, and three years afterward was appointed third secretary at Madrid. He served five years at St. Petersburg, to which court he was appointed in 1885. After two years at Constantinople, he was for a time charge d'affaires at Bucharest. He saw further service at Cairo and Zanzibar, and was Minister at Teheran from 1900 to 1905. From Teheran he went to Brussels and from there was appointed viceroy in succession to the Earl of Minto.

He went to India with the prestige of a great name, being a descendant of a former Governor-General under the East India Company, who was rewarded by a viscountcy and a handsome pension for most distinguished services in the great Sikh war.

An Original Invitation.

The annual West Country (Eng.) Festival was held a few days ago, under the presidency of Sir John Spear, a Devon M.P. The letter of invitation began as follows:—

"Didn't we know, then, us West Country voke in Lunnun was heven our trawson on Saturday, Oct. 28th? Well, us be, then, sure. The tay is in Regent's Hall, an' ther'll be dree tays, like. Fust won at 4.45, next 5.40, third 6.30; so yu better cum tu, 'cus ev'rybuddy what yu knowed down long wat's up in Lunnun 'll be there fur sure."

We wonder how long the goodly western speech will continue to be spoken. The modern educational system cannot, to be sure, teach boys and girls how to write or spell with any degree of real proficiency the English of the books, but it has done a great deal to destroy the old and comely traditional tongues of east and west, north and south.

An Aviation Institute.

At Koutchino, near Moscow, there is established the most complete laboratory now in existence for the prosecution of researches pertaining to aviation. This institution has become the centre of much interest within the last year or two. Here investigations are made of all questions relating to aerodynamics, and some remarkable results have been obtained, especially in regard to what is called the "autorotation" of bodies of certain shapes when placed in currents of air. It has already been made evident that there are many phenomena of an unexpected character which, when they have been thoroughly investigated, may materially aid investors and engineers in the construction of improved flying machines.

Smart Boy.

George was ten years old and the pride of his parents. He was so sharp.

The other morning a tramp came up to the front of the house and, seeing only George about, seized hold of him and said fiercely, "Na then, look 'ere, if yer don't tell me where yer keeps yer cash I'll screw yer bloomin' neck round."

George was terrified, but he managed to gasp out, "Please don't do that; all the money we've got is in an old waistcoat in the back kitchen."

The tramp departed. Three minutes later, as he picked himself up off the cobbles in the back yard, he muttered, "Smart boy that, very smart; didn't say a word about 'is father bein' in that waistcoat.'"—Answers.

Didn't Blame Him.

The professor had just stated a hypothetical case.

"Our patient," he concluded, "suffering from disease of the hip joint, walks lame. Now, young man, what would you do in such a case?"

"Why—er—why, sir, I'd walk lame, too," replied the somewhat mystified medical student.

Ideas.

"Youngleigh has some singular ideas."

"What, for instance?"

"Well, he says it is mean to profit by other people's experience after they've been at all the trouble and expense of collecting it."

Maintained He Was Not a Vagrant.

Toronto.—The court of appeals has dismissed the appeal of L. C. Munroe, from the refusal of Chancellor Boyd to release under habeas corpus proceedings. He maintained that as he had \$25 in his pocket he was not a vagrant. He was arrested in Kenora on a charge of begging and was sentenced to six months in Central prison on a charge of vagrancy.

CATTLE SCARCE IN CANADA

P. Burns Discusses the Effect of the New Policy of Great Britain.

Calgary.—The action of the British government in yielding to the pressure of the British Radicals and declining to renew contracts with the American beef trust, to supply the British army and navy, would be a good thing for Canadian cattle trade, if there were any cattle in the country is the opinion of P. Burns of Calgary. In western Canada, however, he said there is little more than sufficient supply the local demand. So many young cows have been exported and so many heifers spayed that the percentage of young stock has decreased to such an extent that it will take some years to recover.

Had this order occurred some years ago, he said, it would have been a great encouragement to the cattle industry to Alberta. As conditions now are the principal benefit will go to the Argentine and to Australia.

"It may be, however," he remarked, "that we may be able to get American cattle into Canada to be canned here and shipped to the British army, in which case it will be of great benefit to the Canadian canning industry."

As conditions now exist, he said, we have not the material to supply the demand.

"I do not know what the intention of the British government is, but I only wish we had the material to supply their requirements," said Mr. Burns.

"I believe, however, that it will result in a better market for Canadian cattle and be the means of inducing the farmers on the prairie to go in more for raising more beef cattle and fitting them for market."

Mr. Burns then gave some interesting figures in regard to how a farmer could secure a higher price for his coarse grain by feeding it to stock and selling it on the hoof than by taking it to the elevator.

This, he said, is the hope of the future of Alberta farming and it is only beginning to be realized.

WAS "TECHNICALLY KICKED"

Strong Criticism Handed Out By Judge Mabey to G. T. P. Solicitor

Ottawa.—Can a man be "technically kicked?" That was a question the railway commission had to decide at a recent sitting. It came up in the hearing of a complaint by E. A. Purcell, of Saskatoon, that the G. T. P. was endeavoring to give an exclusive contract for the carrying of passengers to and from its station to a bus company and refused him the right to enter the grounds to accept fares. D'Arcy McGee, of Ottawa, appeared for Mr. Purcell, and D'Arcy Tate, the company's solicitor, for the G. T. P.

Although the question was in itself a small one, it involved a large matter of the right of railway companies to make exclusive agreements of the kind. An adverse decision to the company was given some time ago and Mr. Tate was desirous of gaining a rehearing.

"You piled trunks and baggage up so that ladies could not get from the train to Mr. Purcell's cab," said Judge Mabey. "Why your agreement means that my coachman couldn't meet me at the station to take me home."

"We could modify such agreement," suggested Mr. Tate.

"I wouldn't modify such an agreement, I would wipe it out of existence altogether," replied the chairman. "Nobody but your company tries to do these things. You are trying to do illegal things all the time. This man was kicked around by your station master. You had him in the police court and an appeal was refused."

"Only technically," was Mr. Tate's reply.

"Oh, the man was only technically kicked by the station master?" asked Judge Mabey.

"Why, the station agent and he are the closest friends; that's the whole trouble," replied Mr. Tate, and seemed surprised when the court laughed. Judge Mabey finally refused the motion of rehearing.

Falls Down Stairs

Grand Forks, N.D.—From injuries which she received in a fall down the basement stairs of her home near McCanna, Mrs. Frank Kelly, aged 80 years, died recently. She had sustained several broken ribs and injuries about one shoulder, lapsing into a state of unconsciousness shortly after the accident, and remaining in that condition until death.

Mrs. Kelly was walking up the stairs at the time, and as she reached the top step she reeled over backward, striking the basement floor on one shoulder.

Aged Alberta Man Loses His Memory

Toronto.—A man who gives his name as John Jackson and says he has a son living in London, Ont., was taken in charge by the police. Railway officials refused to carry him on any of their trains. He says that he came from Strathcona, Alta., but on nearing Toronto seemed to have lost his memory. His strange actions attracted the attention of the train crew and on the arrival at Toronto the police were notified.

A wire was sent to the chief of police in London. The man is 82 years of age and quite feeble.

WANTS VACCINATION

DR. HODGETTS WILL FIGHT THE "ANTIS" IN CANADA.

Medical Adviser to the Health Section of the National Conservation Commission Advocates a Compulsory System as Now Obtains in Many Countries—A Life-Long Student of All Forms of Sanitation.

The Anti-Vaccination League of Canada, which from its headquarters in Montreal has opened a campaign against vaccination, will find a sturdy opponent in Dr. Charles A. Hodgetts, medical adviser to the health section of the National Conservation Commission. A short time before Dr. Hodgetts resigned his position as secretary of the Ontario Board of Health and deputy registrar-general, to go to Ottawa, a reporter had a chat with him on this subject.

"I advocate a compulsory vaccination law," he said, "similar to those of Germany, France, and Japan, in preference to the old-fogy, out-of-date English law."

Dr. Hodgetts is the only medical man in Ontario who has given his whole time and devoted his life work to sanitation in its widest sense. It will be remembered that when, a short time before accepting the Government position he now holds, he was offered the post of Toronto Medical Health officer, but declined it. One or two of the newspapers, however, continued to remark that he was reconsidering his decision, whereupon Dr. Hodgetts gave out this statement: "I have said that I will not accept the position. I am not a woman. I never change my mind."

MEN IN MAJORITY IN CANADA

Interesting Bulletin in Regarding the Population in Western Canada

Ottawa.—Another census bulletin has been issued from the office of the chief census commissioner. It gives the population of the Dominion by electorate divisions and by sexes. First bulletin issued gave Canada a total population of 7,183,000.

These figures have now been increased to 7,192,338, which is an increase of 1,821,823 for the Dominion since 1901. Columns of the bulletin giving the population by sexes are not quite complete, ten subdivisions being still missing in British Columbia, and a couple in Saskatchewan. With these left out the bulletin shows that there were in the Dominion on June 1 last 3,805,350 males, and 3,376,937 females.

The increase in the male population since 1901 has been 1,054,644, while females have increased by 757,330. The explanation of large increase in male population can doubtless be found in immigration figures, which show that the arrivals of males from Great Britain, the United States and other countries largely predominate. For instance surplus of males over females in British Columbia is 106,883, while in Saskatchewan it is 90,336, in Alberta 73,500.

Unit of representation as fixed by the present population of Quebec will be 310,852. This is practically the same as estimated when the first census bulletin was issued and will not affect estimate then made as to changes which will take place in representation of various provinces when the redistribution bill is passed.

If we win "they say" it's a fluke. But if we fail they say they saw it coming!

RING IN THE GLAD NEW YEAR

RUMOR IS A JOKE

Story That Sir William Mackenzie Would Borrow \$80,000,000 is Laughed At

Toronto.—The story that Sir William Mackenzie is on his way to Paris to borrow \$80,000,000 to tide him over temporarily, originated in New York. Sir William sailed from Halifax, and probably he does not know yet the important mission assigned him by Wall street. When he left here the biggest thing in his Paris programme was the inspection of young Count De Lesseps, his grandson. The last financing of the Canadian Northern Railway abroad is too recent to make a shrewd and experienced borrower like Sir William repeat the operation at once in a market so closely akin to London as Paris. The \$35,000,000 loan of the Canadian Northern upset financial London considerably. A prominent London banking authority, in a letter, remarks, "The city is very angry about the loan, which has flattened consols and all gilt-edged securities. They want to know why the Canadian Northern required so much."

The answer is that the Canadian Northern has a lot of road to build yet, to link Port Arthur up with Montreal.

To Stop Realty "Wild Catting"

Calgary.—A meeting of the real estate section of the board of trade will be held to deal further with the question of misrepresentation of Calgary property, another glaring case of which has been brought to light. This matter was first discussed at the last meeting of the real estate section of the board held on Dec. 11. It is expected that further steps will be taken in the propaganda of preventing such misrepresentations.

MAY REFUSE APPEAL

President Taft Disfavors Request For Extension of Pulp Concession

Washington.—President Taft in all probability will not pass upon the appeals of the several European powers for the abolition of duty on wood pulp and paper in consideration for a like concession having been extended to Canada, until the problem has been determined by the courts. It is the present intention to appeal to the United States court of customs appeals for a judicial settlement of the question of the application in the premises of the most "favored nation" clause of the commercial treaties under which the claim for free entry is made.

The treasury department is assessing the duty on all wood pulp and paper coming into the country except that from Canada. If the customs court should decide the controversy, it is a debatable question among lawyers whether or not the issue could be carried to the supreme court. The act creating the customs court declares its decision in customs matters shall be final.

Conductor Exonerated by Court

Calgary.—The court en-banc handed down judgment in the case of King vs. Thompson quashing the conviction of W. K. Thompson. The appellant was convicted of theft of money from the Canadian Pacific Railway company, by whom he was employed as conductor when he appeared before Justice Stuart in the district court recently. He made application for a stated case, and the hearing before the court en-banc resulted in the overruling of the conviction.

THE SUNDAY SCHOOL

LESSON XIV.—FOURTH QUARTER FOR DEC. 31, 1911.

Text of the Lesson, Mal. iii, lto iv., 3 (instead of Review) — Memory Verses iii, 16, 17—Golden Text, Mal. iii, 7—Commentary Prepared by Rev. D. M. Stearns.

Although a portion of this prophecy has been assigned as our lesson, the lesson suggests a study of the whole prophecy. The words "my messenger" of iii, 1, are just a translation of the word "Malachi" of i, 1, and through the messenger we learn "the burden of the word of the Lord," which is, "I have loved you" (i, 2). We are reminded of Deut. vii, 6-8, where the only reason given why the Lord chose them for a special people unto Himself is "because the Lord loved you." Compare Jer. xxxi, 3; John iii, 16; xii, 1; xv, 9; I John iii, 16. Who is this that so loves unlovely people? Even He who says: "I am a great King. My name shall be great among the nations. I am the Lord. I change not" (i, 11, 14; iii, 6). What does He ask in return for such love? Simply that they hear His message, lay it to heart and give glory to His name, walking with Him in peace and equity, even as Levi did (ii, 2, 5, 6), bringing in all the tithes and proving Him as ready to pour upon them more blessing than they could receive (iii, 10), for He is able to do exceeding abundantly above all we ask or think (Eph. iii, 20). How did they requite such love? They despised His name by offering polluted bread upon His altar, by offering the blind, the lame and the sick for sacrifice; by offering to the Lord what they would not offer their earthly ruler and by calling all their so-called service a weariness (i, 6-8, 12, 13). They wearied the Lord with their words, saying, "Every one that doeth evil is good in the sight of the Lord, and he delighteth in them" (ii, 17). They robbed the Lord of hosts in tithes and offerings and yet said, "Wherein have we robbed thee?" They said, "It is vain to serve God, and what profit it that we have kept His ordinance and walked mournfully before Him?" They called the proud happy and set up those who wrought wickedness (iii, 8, 13-15).

Yet He said: "Return unto Me, and I will return unto you. I will rebuke the devourer, and all nations shall call you blessed, for ye shall be a delightsome land, saith the Lord of hosts" (iii, 7, 12). He is the same as when He pleaded with them before the captivity, saying, "O Israel, thou hast destroyed thyself, but in Me is thine help." "O Israel, return unto the Lord thy God, for thou hast fallen by thine iniquity" (Hos. xiii, 9; xiv, 1). "Return thou backsliding Israel, saith the Lord, * * * only acknowledge thine iniquity. * * * Turn, O backsliding children, * * * for I am married unto you" (Jer. iii, 12-14). In the midst of all the unbelief there was, as there always has been and will be, a faithful remnant referred to in iii, 16, "Then they that feared the Lord spake often one to another, and the Lord hearkened and heard it, and a book of remembrance was written before Him for them that feared the Lord, and that thought upon His name." I have quoted the whole verse, for it seems so marvellous that God should keep a special record of those who even think upon Him. Many have been comforted by this blessed assurance. Then see how He speaks of them in verse 17, "My jewels," or, as in the margin, and the following passages, "Special treasure" (Ex. xix, 5; Ps. cxxxv, 4; Deut. vii, 6; xiv, 2, xxvi, 18). Compare I Pt. ii, 9; John xvii, 23; Tit. ii, 14, revised version. The return of verse 18 is that which is more fully described in chapter iv, and referred to in Matt. xxv, 31; Col. iii, 4; II Thess. i, 7-10; Rev. xix, 11; Ps. i, 1-6. It is the coming of Christ with His saints of Zech. xiv, 5; I Thess. iii, 13, and the former passages just quoted when with His redeemed ones He will execute His judgments on the ungodly and show mercy to His land and His people. It will be the day of vengeance upon His enemies and the time of redemption for Israel (Isa. xxxiv, 8; xxxv, 4; lxiii, 4). When He shall come as the Son of Righteousness (xiv, 2) then shall the righteous shine forth as the sun (Matt. xiii, 4) and as the brightness of the firmament (Dan. xii, 3). There will be, however, an event to precede that which is not mentioned in the Old Testament, the first stage of His return, His welcome to His elect church out of all nations in the air when He shall be to them as the morning star, which is always seen before the sun rising (Rev. xxii, 16; i, 20, 28). It is after the removal of the church (I Thess. iv, 16-18; I Cor. xv, 51, 52; Rev. iv and v) that the great and dreadful day of the Lord, so often mentioned in the prophets and fully described in Rev. vi to xviii, shall come on the earth. Then shall Israel be purified, according to ii, 2, 3; iv, 5, 6; Zech. xiii, 8, 9. John the Baptist, who came in the spirit and power of Elijah to herald the first coming of Christ, was the messenger of chapter iii, 1, and the voice of Isa. xl, 3, but the real Elijah will be the herald of Christ's second coming in glory to judge the nations and set up His kingdom with redeemed Israel as the centre in their own land and Jerusalem the throne of the Lord (Isa. ix, 21; Jer. iii, 17). It was after John the Baptist had been beheaded that the Lord Jesus said, "Elijah truly shall first come and restore all things."

Large Acreage Now Dry Farmed

Lethbridge, Alberta.—There are nearly 30,000,000 acres of land in the western United States now under cultivation by dry farming methods according to a report submitted to the International Dry-Farming Congress, whose next great convention and exposition will be held in this city in October 1912 and just published by the congress in its annual handbook.

Colorado, it is said, heads the list of States with between 8,000,000 and 12,000,000 acres devoted to crop production without irrigation. Kansas, Nebraska the Dakotas, Montana and Texas have each more than 2,000,000 acres. Idaho has more than 1,400,000 acres. Utah 6,000,000, Oregon 1,200,000 Washington 1,000,000; New Mexico, 800,000, Arizona 235,000. Nevada shows the least dry farming development of any western state with but 6,500 acres under cultivation, through the state gives promise of quadrupling this amount within the next two years. Owing to more favorable local conditions only a small portion of Oklahoma is dry farmed it being estimated that about 10,000 acres are handled in this manner.

The annual handbook just issued by the Dry Farming Congress of which this report is a part covers the years progress of dry farming in 18 states and 10 nations of the world and contains more than 80 articles dealing in detail with every branch of the great science which is today changing the western half of America from treeless desert to prosperous farms.

YOU THINK IT'S RHEUMATISM

You Haven't Rheumatism!

It's only fallen instep—a breaking down of the foot arch—easily cured. Flat-foot brings muscular pains that feel much like rheumatism and are often diagnosed as such. The one sure cure is to properly support the arch of the foot long enough to give it time to grow right. The Scholl "Foot-Eazer" does this—takes off all the strain—Nature cures the trouble. The

Scholl "Foot-Eazer"

worn inside any shoe—gives just the right pressure at the right spot—and not only overcomes the strain produced by flat-foot—which is responsible for all the aches and pains of the feet and limbs—but also eases the feet, body and nerves and prevents flat-foot. The Scholl "Foot-Eazer" gives the feet a well-arched even tread. For men and women—price \$2.00 the pair.

Your money back if they do not ease your feet.

Get the Scholl "Foot-Eazer"—not an imitation. Your health is too important to run any risks. Ask your shoe dealer or druggist to let you try a pair.

THE SCHOLL MFG. CO., Ltd., 472 King St., W., TORONTO.

S. PERRIN, Agent, Bowden

Backache

Is only one of many symptoms which some women endure through weakness or displacement of the womanly organs. Mrs. Lizzie White of Memphis, Tenn., wrote Dr. R. V. Pierce, as follows:

"At times I was hardly able to be on my feet. I believe I had every pain and ache a woman could have. Had a very bad case. Internal organs were very much diseased and my back was very weak. I suffered a great deal with nervous headaches, in fact, I suffered all over. This was my condition when I wrote to you for advice. After taking your 'Favorite Prescription' for about three months can say that my health was never better."

Dr. Pierce's Favorite Prescription

Is a positive cure for weakness and disease of the feminine organism. It allays inflammation, heals ulceration and soothes pain. Tones and builds up the nerves. Do not permit a dishonest dealer to substitute for this medicine which has a record of 40 years of cures. "No, thank you, I want what I ask for."

Dr. Pierce's Pleasant Pellets induce mild natural bowel movement once a day.

LARGE PROFITS IN MAKING BRICK

Expensive Shoes

Some persons like one sort of shoe and some another, but the kind which was desired by Pierre, a French-Canadian, has never enjoyed a wide popularity.

"Shoes for Sunday," Pierre stated to the young man who advanced to meet him as he entered the saleroom of the big shoe factory.

He then sat heavily down on one of the red plush seats and allowed the salesman to insert his feet in a pair of bright yellow shoes. When they were fairly on, Pierre stood, moved his feet this way and that, took a few steps, and shaking his head, sat down again.

"What's the matter?" asked the salesman. "Do they hurt you? Are they too tight?"

Pierre shook his head violently.

"She no tight," he said, "but also she no talk. Shoes for Sunday must talk, talk, all the way up in church for to soun' stylish see?"

CURED HIS WIFE SO HE TRIED THEM

LEON SERGENT FOUND NEW HEALTH IN DODD'S KIDNEY PILLS

Suffered with his Kidneys and was very feeble, but now he is feeling fine.

Saint Walburg, Sask. (Special).—One healthy, happy family in this neighborhood are always ready to speak a good word for Dodd's Kidney Pills. They are Mr. and Mrs. Leon Sergeant, and here is the reason in Mr. Sergeant's own words:

"I suffered with my kidneys and I was very feeble. My urine was thick and had a brick-dust sediment. As Dodd's Kidney Pills had already cured my wife, I bought three boxes. Now my urine is normal and I feel fine."

It is statements such as these that give Dodd's Kidney Pills their popularity. They are no cure-all. They simply cure diseased kidneys and the ills that come from diseased kidneys. But no matter what neighborhood you visit you find some man or woman who has been sick and in pain and has been cured by Dodd's Kidney Pills. For a score of years this work has been going on and today in every part of Canada Dodd's Kidney Pills are known as the one sure cure for Kidney Disease, Urinary Troubles, Backache, Rheumatism, Dropsy, Diabetes and Bright's Disease.

God leaves the will of man at perfect liberty. His Divine Love neither constrains nor compels.

There is no poisonous ingredient in Holloway's Corn Cure, and it can be used without danger of injury.

"A brother can be more aggravating than any other kind of man."—Suffragette Sally, by G. Colmore.

Minard's Liniment Co., Limited.

Gentlemen.—I have used MINARD'S LINIMENT from time to time for the past twenty years. It was recommended to me by a prominent physician of Montreal, who called it the "great Nova Scotia Liniment." It does the doctor's work; it is particularly good in cases of Rheumatism and Sprains.

Yours truly,

G. G. DUSTAN,

Chartered Accountant.

Halifax, N. S., Sept. 21, 1905.

Where we do evil our reasons mostly are known to us, but our good deed becomes the purer for our ignorance of its motive.

REST AND HEALTH TO MOTHER AND CHILD.

Mrs. Winslow's Soothing Syrup has been used for over SIXTY YEARS by MILLIONS of MOTHERS for their CHILDREN WHILE TEething, with PERFECT SUCCESS. IT SOOTHES THE CHILD, SOFTENS THE GUMS, ALLAYS ALL PAIN, CURES WIND COLIC, and is the best remedy for DIARRHOEA. It is absolutely harmless. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind. Twenty-five cents a bottle.

We must ourselves learn the ways of right and wrong, and having learned, we must choose.

Minard's liniment cures garget in cows

A kindly will often makes a way when a bitter tongue will erect insurmountable barriers.

A Medical Need Supplied.—When a medicine is found that not only acts upon the stomach, but is so composed that certain ingredients of it pass unaltered through the stomach to find action in the bowels, then there is available a purgative and a cleanser of great effectiveness. Parmelee's Vegetable Pills are of this character and are the best of all pills. During the years that they have been in use they have established themselves as no other pill has done.

He who no longer believes in reward or punishment must do good for the sake of good.

Leading Papers Display the Danger Against Alum in Food

Thousands have no doubt read the commendable articles recently appearing in some of the leading American and Canadian papers on the use of alum in baking. Until the Dominion Government follows the lead of England, France and Germany and prohibits the use of alum in foods, there is but one safe-guard against alum and that is to buy only a baking powder which has the ingredients plainly stated on the label.

BANK OF MONTREAL

Ninety-Fourth Annual Meeting of Shareholders

The Bank of Montreal has just completed 94 years of business in Canada, which in the history of a young country is no inconsiderable period. The 94th annual meeting was held on December 4th with President R. B. Angus in the chair. In many ways the meeting was one of the most memorable in the history of the bank owing to the fact that the net profits for the year were the largest on record and that the retirement of Sir Edward Clouston as general manager was announced. Another feature of more than ordinary interest was the readjustment of the values of the bank premises. For years these were valued at \$600,000, but a recent appraisal increased this to \$4,000,000. The \$3,400,000 thus secured was partly used in increasing the rest account, which now stands at a sum equal to the paid up capital, while the balance was carried to the profit and loss account.

The total assets of the bank now stand at \$230,000,000 making it one of the strongest financial institutions on the continent. A more detailed examination of the report shows that the net profits for the year amounted to \$2,276,518 as compared with \$1,797,992 for the previous year. The balance of profit and loss carried forward for the present year was \$1,855,185 or practically double the figures for 1910, which amounted to \$961,789. Premiums on new bank stock issued by the bank during the year amounted to \$365,677 while the re-adjustment of the bank premises account brought in an additional \$3,400,000. Thus a total of slightly over \$7,000,000 was made available for distribution this year of which \$1,440,000 was expended in dividends \$3,000,000 credited to the rest account and \$708,000 to new premises account, leaving a balance of \$1,855,000 to be carried forward as balance of profit and loss. A further examination of the report shows that the bank has deposits bearing interest of nearly \$136,000,000 while its deposits not bearing interest amount to \$46,000,000. The amount of call and short loans in Great Britain and the United States consists of over \$42,600,000 while the current loans and discounts in Canada and elsewhere amount to over \$121,000,000. The latter shows an increase of over \$9,000,000 which indicates that the bank continues to do its full share of furthering the development of the country and that it continues to grow with the country. To call and short loans which the bank keep in New York and London while returning only a small rate of interest is found to be a wise provision. The call of these loans placed in London and New York is far less disturbing to Canadian business than if they were on call in Canada.

Altogether the showing made by the Bank of Montreal is a very satisfactory one and reflects the highest credit upon the directors and upon the general manager who is now relinquishing the position which he has held for so many years. His successor will be Mr. H. V. Meredith, who has been associated all his life with the bank whose affairs he will further direct.

The address of President R. B. Angus was as usual a careful resume of the financial, commercial and industrial expansion of the Dominion. The Bank of Montreal with its many branches scattered throughout the country and its intimate relationship with every phase of our national life is able to present authoritative reports regarding the country's growth and development. Without exception this year's report by the president was full of optimism. That this was not unfounded was shown by the bank's record of 1911 which was the most successful in the 94 years of its history.

Pills for Nervous Troubles.—The stomach is the centre of the nervous system, and when the stomach assumes healthy action the result is manifest in distinctness of the nerves. If allowed to become nervous, debility, a dangerous ailment may ensue. The first consideration is to restore the stomach to proper action and there is no readier remedy for this than Parmelee's Vegetable Pills. Thousands can attest the virtue of these Pills in curing nervous disorders.

"Men like to be comfortable, and the man has yet to be born who can be comfortable on a pedestal. The ordinary pedestal is too narrow, and the ordinary man is too broad."—Miss Daffodil, by Curtis Yorke.

Shiloh's Cure

quickly stops coughs, cures colds, heals sore throat and lungs. 25 cents

It was stated by good authority recently that the Canadian Pacific Railway has decided to use crude oil for fuel for its locomotives on a portion of its British Columbia Division. This rumor has been current for some months. Sir Wm. White, ex-Vice-President of the C. P. Railway having made a statement last summer that the matter was receiving consideration at head quarters. It is also said that in this connection circular tanks of rivetted steel boiler plate with a capacity of 200,000 gallons will be built on the Shuswap and Mountain subdivisions of the first district of the B. C. Division at Field, Golden, Rogers Pass, Revelstoke, Sicamous, Jct., Netch Hill and Kamloops. It is also stated that the only change necessary in the locomotives will be the insertion of jet burners in the fire boxes. The tenders will be changed to hold oil instead of coal.

Specialist Did Skin Trouble No Good

Very Itchy and Disfiguring. Got a Little Cuticura Soap and Ointment and Was Cured.

"For two summers I suffered with skin trouble on my arms, and on my legs from my knees down. My arms were badly disfigured, and I kept them covered. It came like the hives, and was very itchy. I consulted a specialist, who gave me medicine, as well as an ointment, but seemed to do no good. It was beginning to appear on my face."

"I got a little Cuticura Ointment and some Cuticura Soap. The first touch of Ointment seemed to relieve, and before the Cuticura Ointment was finished I was cured. I have not the least sign of trouble. I think it would have spread over my whole body if Cuticura Soap and Ointment had not cured me. I am delighted with them, and do feel pleased to think I have something I have confidence in. I tell all my friends about them, and I think Cuticura Ointment is the best I ever saw." (Signed) M. J. Boddy, 73 McCaul St., Toronto, Dec. 22, 1910.

Cold-Sore Began to Heal With First Use of Cuticura Ointment.

"Cuticura Ointment cured a very bad cold-sore that gave me hours of severe pain and loss of sleep. I tried lots of other remedies but nothing did me any good till I tried Cuticura Ointment, and from the very first application it began to heal and now there is not even a scar left." (Signed) Mrs. W. Boyce, Mermaid Farm, P.E.I., Jan. 8, '11.

For more than a generation Cuticura Soap and Cuticura Ointment have afforded the speediest, safest and most economical treatment for skin and scalp troubles, of young and old. Although they are sold by druggists and dealers everywhere, a liberal sample of each may be obtained free from the Potter Drug & Chem. Corp., sole props., 57 Columbus Ave., Boston, U. S. A.

A Good Digestion

means a man or woman good for something—good work or pleasant times. Whoever has distress after eating, sick headaches, nausea, bad taste, unpleasant breath, cannot find good in anything, or be of much use in the world.

But these symptoms are only signs that the stomach needs a little care and attention and the aid that

Beecham's Pills

can give. Safe, reliable, thoroughly tried, this family remedy has wonderful reviving power. They tone the stomach, liver and bowels—all organs of digestion. With these organs in good order, the whole system is better and stronger.

Try a few doses and see for yourself what a splendid bodily condition Beecham's Pills

Can Create

Synopsis of Coal Mining Regulations

COAL mining rights of the Dominion of Manitoba and Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and British Columbia, are leased for a term of years at an annual rental of \$1 and one applicant.

Application for a lease must be made to the Agent or Sub-agent of the district in which the right applied for are situated.

Insured territory the land must be described by sections, or legal subdivisions of sections and in uninsured territory the track applied for shall be staked out.

Each application must be accompanied by a fee of \$5 which will be refunded if the rights applied for are not available but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns, monthly, accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10.00 an acre.

The Minister may reserve for an applicant the coal mining rights under 2,000 acres of coal-bearing lands for two years. Application for such right must be made to the Agent. Fee \$100.00. An expenditure at the rate of \$1 an acre per annum, in prospecting by recognized methods, must be incurred.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY
Deputy Minister of the Interior

Synopsis of Canadian North West Land Regulations

ANY person who is the sole head of a family, or any male over 18 years old may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties—Six months residence upon and cultivation of land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price \$3.00 per acre.

Must reside upon the homestead for six months in each of three years from date of homestead entry (the time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price \$3.00 per acre. Duties—Must reside six months in each of three years, cultivate 50 acres and erect a house worth \$300.00.

W. W. CORY
Deputy Minister of the Interior

ALBERTA

Seed Fair January 17th

The Third Annual Seed Fair conducted by the Alberta Government under the Auspices of the Bowden Agricultural Society will be held in McCue's Hall Bowden on Jan 17th. These fairs are becoming very popular and have met with great success where ever they have been held. The object which the Department of Agriculture has in view in holding these exhibitions is the raising of the standard of grain grown throughout the province. The success which has attained its efforts is very forcefully demonstrated by the great showing made by several farmers of this locality who won prizes for grain exhibited at the seed fairs held last winter at Olds and Innis. At the Provincial Seed Fair held at Lacombe grain from Bowden also carried off honors.

Although the harvest this year was very late and some of the grain was damaged by frost yet there is some fine specimens in this district which should again if exhibited call for recognition from the judges. Last year's Seed Fair had a great influence in opening up a local purchasing market for good seed and as a result the farmers throughout this district have a higher standard of grain.

The rules, prizelist and programme of the Seed Fair to be held here this year are published below.

Rules

1. All seeds entered for competition must have been grown by the exhibitor in the year 1910 except oats, which may be exhibited from 1909 crop.

2. No seed shall be admitted for competition for prizes unless the quantities of seed for sale, as per sample exhibited, are at least 20 bushels of wheat, 50 bushels of oats 20 bushels of barley, 3 bushels of peas, 5 bushels of flax seed, 5 bushels of timothy seed, 10 bushels of potatoes.

3. In classes 1—8 inclusive, two bushels of seed shall be shown; in classes 10—12, one bushel. All exhibits of seed shall be held to be representative of the total quantity of such seed offered for sale by the exhibitor.

4. No premium shall be awarded on exhibits that contain impurities, which, in the opinion of the judge are of a noxious nature.

5. No exhibitor shall receive more than one prize in any class.

6. All samples of seed must be labeled after judging, with the name and address of the exhibitor the name of the variety the amount of seed for sale and the selling price.

7. The committee in conjunction with the judges reserve the right to debar any exhibit on which in their judgement a prohibitive price is placed.

8. Any exhibitor making entry under any of the above classes thereby guarantees that his exhibit is a fair sample of the seed he has for sale, and that the said sample has only been cleaned through a fanning mill (not a grader) once, and furthermore, with particular reference to oats, that nothing has been done that would come under the head of "clipping," "rubbing," "blanketing," etc.

9. Before prizes are paid each exhibitor will be required to certify that his exhibit strictly complies with regulations. In case of failure to do so the next in order will be awarded the prize.

10. Potatoes may be selected.

11. Entry fee shall be 25c. per bushel to non-members and free to members of the Bowden Agricultural Society.

12. All exhibits for competition for prizes must be delivered at McCue's Hall, Bowden, not later than 10 a.m. on Tuesday March 7th 1911 and shall not be removed until the close of the Fair.

Prize List

- 1 Winter Wheat Alberta Red... 5 3 1
- 2 Winter Wheat, any soft variety... 4 3 1

- 5 p.m. close of Fair. Exhibits may be removed.

Eskimo Graves of Stones.

To the Eskimo mind everything animate or inanimate possesses a soul. Thus in their graves we found they invariably placed every cherished possession, that their spirits might serve the departed spirit in the same capacities in the life to come. There is little room for burial beneath the scanty earth in Labrador, even if the frost would permit. So the grave consists of upright stones, with long flat ones laid across. These not only serve to keep the wolves from the body, but wide chinks also afford the spirits free passage in and out.—Wilfred T. Grenfell in Century.

Uncle Sam's Human Hinges.

In other cities the doors of public buildings are set on springs and slap to and fro as the visitor wills, but in Washington it appears necessary to have a special man to open and close the doors—human hinges, as it were—no undignified banging of doors there. This custom has died out in other places, but there are many veteran negroes in Washington who have seen years of such service for the government. They have a stately way of performing this office, which gives a door an official and unofficial swing.—Joe Mitchell Chapple in National Magazine.

A Mystery to Father.

"So your daughter has gone to Europe, after all?"
"Yaas," drawled Farmer Hayseed; "she's been daffy t' go ever sence she left skule. These here female girl colleges dew put ideas intew women's heads. Her maw an' me never could calc'late why she was so set t' go t' Yurup. She don't know a soul thar."
—Lippincott's.

Only a Man.

Mrs. Peck (contemptuously)—What are you, anyhow, a man or a mouse?
Mr. Peck (bitterly)—A man, my dear. If I were only a mouse I'd have you up on the table yelling for dear life right now!

As a Remedy.

"I want to get copies of your paper for a week back," said the visitor to the newspaper office.
"Wouldn't it be better to try a porous plaster?" suggested the facetious clerk.—Philadelphia Record.

Good news sweetens the blood.—German Proverb.

The Emu's Kick.

An emu can kick as hard as any donkey. The bird stands on one leg and with the other delivers at will a quick and generally very accurate blow. "I never would have believed that a bird had such power," says a recent Australian traveler, "had I not had ocular evidence of it during our trip. After two or three of our men suffered from the terrible kicks of these birds we did not venture near them, but, after running our horses until we got close enough, would bring them down with our rifles. We killed them for their feathers and also hunted for their eggs, but we took good care not to go within kicking distance."

In his better moments stormy Carlyle used to say, "Kindness is the sum of life, the charm to captivate and the sword with which to conquer."

THIS WEEKS OFFERINGS

Will Comprise Many Lines
Suitable for

Cold Weather

Nearly all Our Ladies Broadcloth and Tweed Coats are Wearing Reduced Prices. What is the Reason? It is the Policy of this Store never to wait until the back of the Winter is broken before it Starts the Clearing Prices

At 10.00 an extensive range of Ladies Tweed and Beaver Cloth Coats ranging in price up to 14.50 On sale at 10.00
